Summary

Product Manager with 4+ years building and scaling digital products across the U.S. and LATAM. Blends B2B workflow and compliance experience with B2C engagement and growth delivery. Leads cross-functional teams through the full product life-cycle from discovery and roadmap strategy to delivery and iteration turning ambiguous needs into clear MVP scope, prioritized backlogs, dev-ready requirements, and measurable outcomes.

DELIVERY SYSTEMS, TOOLING & AI STACK

Delivery systems: Agile, Scrum, Kanban cadence

Product tooling: Jira, Azure DevOps, Asana, Linear, Confluence, Notion, Slack, Figma, Miro

AI stack (practical use): ChatGPT, Figma Make, Stitch, Google Labs, NotebookLM, and Granola Notetaker.

PROJECT HIGHLIGHTS

- **Awardees: AI-Assisted Resource Allocation SaaS (2025-2026)**

Delivered role-based workflows for resource profiles, project roles, availability, and approvals reducing allocation conflicts and manual coordination. Owned MVP scope and delivery readiness (RBAC, core workflows) and defined AI-enabled features (human-in-the-loop, guardrails, editable outputs).

- **National Media: B2B, AI-assisted data entry automation (2025-2026)**

Defined MVP workflows that transform uploaded planning inputs into structured drafts for review, reducing manual data entry and standardizing creation/review. Led product definition for data-driven buy recommendations by aligning workflow states, processing visibility, and key data dependencies to produce usable outputs.

- **PrizePicks: Free to Play B2C (2024 - 2025)**

Supported launch and iteration of a free-to-play experience for non-paid markets, partnering crossfunctionally to ship engagement mechanics and improve retention signals.

Work experience

Product Manager 2022 - present

DualBoot Partners

- Spearhead Agile development across web and mobile platforms for U.S.-based clients.
- Translate ambiguity into execution: produce dev-ready documentation (PRDs, user stories, acceptance criteria, edge cases) and maintain a prioritized backlog.
- Run delivery cadence: lead sprint planning, grooming, prioritization, and progress tracking; communicate risks, dependencies, and trade-offs clearly.
- Design workflow clarity: partner with design/engineering on user journeys, flows, and requirements to reduce rework and accelerate delivery.
- Support AI-enabled features: define requirements for AI-assisted workflows.
- Operate client-facing: manage expectations, facilitate alignment sessions, and keep decision logs to ensure timely, in-scope delivery.

Project Manager 2021 - 2022

Celerik S.A.S

- Managed end-to-end project delivery across web and SaaS engagements, coordinating cross-functional teams to meet scope, timeline, and quality targets.
- Gathered requirements and translated business needs into actionable documentation (user stories, acceptance criteria, process flows), ensuring clear handoffs to engineering.

Education

Marketing Associate's Degree in Business 2020 - 2023

Politécnico Grancolombiano University

2020 - 2023 Marketing Associate's Degree in Business
Politécnico Grancolombiano University

Associate's Degree in Business 2013 - 2015

Skills

Product Strategy & MVP Scoping

Jira / Asana / Linear / Clickup/AzureDevOps

Stakeholder & Cross-Functional Leadership

Agile / Scrum

AI-Enabled Workflows

- Led Agile ceremonies (planning, grooming, standups, retros) and maintained delivery visibility through structured status updates and risk management.
- Owned stakeholder alignment and change management, clarifying trade-offs and keeping delivery in-scope through prioritization and documentation.
- Supported QA readiness and release coordination to improve predictability and reduce delivery churn.
